

WESTERN CITIES WANT CONGRESS

Enginemen in Session Here Still Working on Changes in By-laws.

ELECTION NEXT WEEK

If Additional Vice Presidents Are Created, Contest for Places Will Be Keen.

Interest in the delegates to the convention of the Brotherhood of Locomotive Firemen and Enginemen chiefly centers now in the choice of the next convention city. Many of the delegates believe that Oakland, Cal., will be chosen. The field has now narrowed down to St. Louis, Denver, Oakland, and Cleveland. There is strong backing for the claims of Denver, and friends of this city will make a warm fight to take the next convention (1916) there.

Changes in their constitution and by-laws took up both sessions of the convention yesterday. The delegates are carefully considering all the various changes proposed, and adoption of new or amended paragraphs progressed slowly and only after long and thorough debate.

Officers of the brotherhood do not expect to have their routine work disposed of much before the end of the week, and it is possible that this work will carry over into next week. According to one of the officers, the choice of their next convention city will be made at the beginning of next week, when the election of officers also will be held.

Delegates who want to bring the organization's headquarters to Washington are already beginning to plan their campaign to bring about such action at the next convention. They feel that the action of this convention in the matter will not interfere with their plans to finally establish the brotherhood in the District of Columbia. Washington is still in the fight, they say, and probably will land the prize at the next convention.

The men who favor the establishment of headquarters at the Capital as the proper center from which to direct the actions of this routine labor organization expect to attend the next convention armed with reasons why Washington should be chosen without delay.

Interest in their coming election of officers centers chiefly around the proposed resolution increasing the number of vice presidents. All the present officers probably will be re-elected. If the number of vice presidents is increased, however, some lively contested elections are anticipated.

Charles H. Turner III, former Assistant United States Attorney in this city and former Representative from New York, is critically ill at the home of his father, at Westworth, N. H. Mr. Turner resigned about two years ago from his position as Assistant United States Attorney to engage in private practice.

DIX MAY BE THE NEXT PHILIPPINE GOVERNOR

Senator O'Gorman Favors Appointment, and President Likely to Send Name to Senate.

Former Gov. John A. Dix, of New York, will probably be the next Civil Governor of the Philippines, according to a statement made by Senator O'Gorman of New York, after a conference with President Wilson yesterday.

The New York Senator told the President that former Gov. Dix has made an exhaustive study of Philippine condition and questions referring to the islands, and that he thinks he is the man best fitted for the post. The President said that he had had Gov. Dix under consideration for some time, and indicated that his nomination would go to the Senate within a short time.

LAWN FETE TO AID TUBERCULAR VICTIMS

Shady Lawn of Old "Belmont" Scene of Charity Bazaar Last Night.

MRS. WILSON SENDS FLOWERS

Starmont Aid for Consumptives gave a lawn fete and a dance on the broad, shady lawn of "Belmont," Fourteenth and Clifton Streets, last night to replenish their means for taking care of the impoverished tubercular sufferers in the District. Several hundred people gathered to enjoy themselves under the giant oaks. Mrs. Woodrow Wilson, a member of the organization, sent several baskets of flowers to be sold for the fund.

The old mansion was brightened up for the occasion, and in its halls, where younger sets of yester-years danced the latest minuet last night the new trols were introduced.

All sorts of wares were for sale on the lawn at many tables. Chinese lanterns were strung from all the trees, and the place was sprayed with their soft light. Mrs. Warner A. Gibbs, dressed in the costume of the Italian peasant girl, sang for encore after encore soft, whimsical ballads in Italian patois. She sang to the accompaniment of the full Engineer Band.

The officers of the Starmont organization were in charge of the entertainment. They were Mrs. W. H. Sholes, president; Mrs. A. P. Clark, Jr., first vice president; Mrs. A. M. McLachlan, second vice president; Miss M. J. Davenport, corresponding secretary; and Mrs. W. C. Fitch, treasurer. There are 250 members in the organization.

Mrs. Charles Gallier, Mrs. William Stewart, and Mrs. S. E. Lewis were in charge of the ice cream table; Mrs. John Wirt, Mrs. Harry Burch, Mrs. Ernest Jamison, and Mrs. T. P. Mullett, the cake table; Mrs. Ruth Hensley, Mrs. William Wirt, and Misses Kern and Sauer, the fancy table; Mrs. Lester D. Moore, Jr., the flower table, and Mrs. Flora Dyer was in charge of the dancing.

BENEFITS TO BE GIVEN FOR NEW HOSPITAL

Lawn Fetes and Other Entertainments Will Assist Washington Eye, Ear and Throat Hospital.

The board of lady managers of the Washington Eye, Ear, and Throat Hospital held a meeting yesterday at No. 4 Iowa Circle.

Reports from the various committees show that this new institution is receiving support from large numbers of Washingtonians, and that it is proving a success from every standpoint.

After the regular business of the board, plans were formulated for a number of entertainments to be held during the summer for the benefit of the hospital.

As the institution is nonsectarian and largely charitable, its chief sources of income are through these affairs and the donations of friends.

The prospective entertainments include lawn fetes, moving picture show parties, and a large theater benefit to be given at Poli's Tuesday evening, June 24.

Many will attend the performance on Tuesday evening, the ladies of the board wish it to be understood that the benefit tickets, at regular summer prices, sold by members of the board, may be exchanged without extra charge for the performance Tuesday, Wednesday, or Thursday, matinee included, provided the exchange for reserved seats is made before Tuesday night, June 24.

Friends of the hospital who anticipate going to the theater during the week of June 24 will confer a benefit by purchasing their tickets from Mrs. Roe Fulkerson, chairman of the ways and means committee, No. 46 Seaton Place Northwest, or from other members of the board.

Heat as Standard Measure.

Heat rather than candle power should be the standard of measurement for illuminating gas, according to a statement issued by the Bureau of Standards of the Department of Commerce yesterday. Where open flame gas jets are used, the candle power standard must be retained, says the report, but where mantles are more economical.

FOURTH PROGRAM GIVEN IMPETUS

Mass Meeting to Devise Ways to Finance Plans Is Big Success.

MANY TO PARTICIPATE

Problem of Costuming the Children in Pageant Is the Big Question Now.

The movement to raise funds to carry out the plans of the joint committee on the celebration of Independence Day received a big impetus at a mass meeting on finance at the Chamber of Commerce last night. A spirit of determination to carry out the big programme that has been outlined was manifest, not only in those who attended the meeting, but in the communications which were read from prominent citizens who were unable to attend.

John Joy Edson crystallized the thought of the meeting in a letter to Chairman Cuno H. Rudolph: "I stand to do anything I can to help perfect the arrangements. I have already contributed, but will gladly add to it if necessary." Mrs. Glenna Smith Tinnin, in charge of the pageant, and Miss Ethel M. Smith, of the pageant committee, gave a wonderfully interesting description of the process of the pageant, folk plays, dances, chorus, and attendant features for the afternoon. Following Mrs. Tinnin's talk various citizens present rose and gave assurances of putting forth their forthright efforts toward the success of the Independence Day programme.

The pageant and other features for the afternoon will command the activities of more than 4,000 children, and to coordinate this vast army of juveniles is one of the problems that is now confronting the pageant committee. It is being met with expedition, however. Arrangements are now afoot to give hundreds of the orphan children of the city a place in the programme, as well as to afford an opportunity for those fatherless and motherless ones not so engaged to witness the unique spectacles.

E. C. Graham, chairman of the finance committee, made an appeal to all the committee members to make personal calls in the interest of the Fourth of July fund, and the joint committee is to be organized into squads and this plan carried out.

Elaborate Programme Planned.

Chairman Rudolph declared that in no previous year has there been a more elaborate programme planned for the celebration of Independence Day, but it is a lamentable fact that the subscription to date have not kept pace with the character of the entertainment which will be afforded all the citizens of Washington.

George W. White, treasurer of the committee, reported that \$10,000 has been subscribed to date.

Among those present at the meeting last night or who sent letters were the following: Cuno H. Rudolph, chairman; George W. White, Waldo C. Hibbs, E. C. Graham, D. S. Porter, Charles J. Bell, Charles J. Columbus, William T. Gallier, H. P. Andrews, Isaac Gans, William J. Eynon, Thomas Grant, George H. Harris, Otto Luebkert, J. Fred Kelley, E. H. Droop, James F. Oyster, Henry B. F. PROBE INTO CUSTOMS SERVICE.

McAdoo Appoints Commission to Investigate New York Port.

Secretary of the Treasury McAdoo yesterday announced the appointment of a commission of nine members to investigate the customs service in New York City, under the direction of Collector Mitchell. The commission is composed of Frederick A. Cleveland, Ernest C. Meyer, Julius J. Palkay, and Arthur W. Proctor, all of the Economy and Efficiency Commission; Francis Oakley, of Washington, D. C.; and John L. Fultz, Richard C. Harrison, and Edgar V. O'Daniel, of New York City.

The commission was not named, the Secretary said, because of frauds in the service, but with the view to making the port of New York the model for the entire country.

TRANSACTIONS NOT CRIMINAL.

Attorney for Woodmen Claims Money Represented Commissions.

The defense of Samuel J. Masters and John B. Kinnear, former chief workman and chief scribe, respectively, of the Modern Woodmen of the World, on a charge of embezzling \$12,700 of the funds of the organization, began yesterday.

Counsel for the defendant, in his opening statement, declared the transactions of his client were in no manner criminal. He admitted that the two officers received the money alleged to have been embezzled, but contended that they were entitled to the amount in the way of commissions.

GROCERS TO SPEND HOLIDAY DOWN RIVER

Retail Grocers' Protective Association to Go to Marshall Hall on June 25.

Householders, beware! Wednesday, June 25, is Grocers' Day in Washington, and the purveyors of food-stuffs are going to take a half day off in honor of the event. This was decided on last night at a meeting of the Retail Grocers' Protective Association, held in the Pat Men's Club.

J. H. Goodrich, president of the association, was in the chair, and announced, following the meeting, that the grocers had planned to spend the day at Marshall Hall, where they will run off a series of events of an athletic and mirth-provoking nature. The grocers decided to close their stores at 1 o'clock next Wednesday. The association made an appropriation of \$100 to be distributed in cash prizes to the winners in the various events of the day.

Perry P. Patrick, secretary of the association and general manager of the food store to be given by the grocers at Convention Hall in November, made a report of the operations of his office in that connection. Mr. Patrick stated that one-third of the floor space has already been disposed of, and that many local firms were represented in the list of exhibitors to date.

The following were among those present last night: J. H. Goodrich, president; G. E. Robinson, first vice president; C. V. Sparrow, second vice president; A. G. Schmidt, treasurer; Perry P. Patrick, secretary; F. A. Dodge, H. I. Meader, J. Brayshaw, Jr., M. J. Whelan, E. E. Robinson, H. C. Rothery, R. E. Diggle, H. E. A. Rollins, J. B. Diggle, H. C. Robinson, R. E. W. Schmidt, and Charles F. Diggs.

EXCURSION TO BE SUCCESS.

Railway Relief Association Promises Attractive Programme.

One of the biggest days of the year at Chesapeake Beach is the excursion of the Washington Railway Relief Association, which will take place Thursday, June 26. The committee in charge of the event has arranged an attractive programme. Many novel features are being introduced.

Clarence P. King, president, and the other officials of the Washington Railway and Electric Company are taking deep interest in the outing.

The following officials of the company will act as the judges in the various events to be run off during the day: Clarence P. King, William F. Ham, Clarence P. Norment, William Loeb, Woodrow H. Clark, George T. Friedman, Charles J. Bell, Milton E. Allen, William B. Hibbs, J. T. Moffett, F. J. Whitehead, William L. Clarke, E. S. Marlow, R. Russell Bowen, L. E. Sinclair, C. E. Brown, C. S. Kimball, J. J. Darlington, George P. Hoover, L. W. Glasbrook, H. M. Talbot, W. A. Wenner, A. S. Parry, J. E. Tenly, C. C. Whitney, W. C. Sullivan, R. W. Crowell, and W. F. Jones.

MRS. BELVA LOCKWOOD PLEADS AGAINST WAR

Disciple of Peace Brings Message to International Woman Suffrage Congress in Budapest.

RESOLUTION IS PASSED

Advocating universal peace, the abolition of war, and the settlement of international difficulties by arbitration, Belva A. Lockwood, of this city, on Monday last presented before the members of the International Woman Suffrage Congress, in session at Budapest, Austria-Hungary, a lengthy message from the American Woman's Republic, headquarters of which are at University City, St. Louis, Mo.

Word to this effect was received by The Herald last night in a special communication from Mrs. Lockwood, embodying the text of the message. The message was presented by Mrs. Lockwood as the spokeswoman for the twenty ambassadors sent to attend the congress by the Woman's Republic.

The Washington woman left New York in May aboard the Hamburg-American Line steamship, Frederik. The party reached Budapest June 11, and arrived at Budapest last Sunday. The voyage was a very pleasant one, although the weather was unusually cool.

"Regardless of nationality, religion, or politics," read the message, "we come to ask your co-operation in a world-wide crusade against war and the increase of armaments, believing that war settles nothing but the question of which nation is stronger, leaving the difficulties that brought on the strife to be settled later by intervening parties through the use of arbitration and concession. That war is a question of brains, not brains of might, not right, is an obvious fact. It is a relic of the barbarism of past ages that should no longer be resorted to by so-called Christian and civilized nations.

"Women in the past have not been consulted by any nation about a declaration of war with other nations, and they have been the principal sufferers. The burden and the horrors of war have always fallen upon them, as they make the necessary sacrifices. They furnish the sinews of war in their own flesh and blood.

"It seems today that the abolition of war and the reduction of armaments, the increase of which is eating up the substance of the great powers of the world, must come through the influence and power of the educated and cultivated women of the world. It is further resolved that as a body we recommend the settlement of all international difficulties by arbitration and mediation."

Progress on the Canal.

A cablegram from the chief engineer at the Panama Canal received by the Isthmian Canal Commission today reports that 2,732,222 cubic yards of earth were excavated during May, as against 2,633,992 cubic yards in April. The average daily output in May was 100,950 cubic yards compared with 92,077 in April. This indicates faster work as there were the same number of working days and the same amount of rainfall in both months.

The concrete laid amounted to 41,482 cubic yards against 35,375 cubic yards in April, and 106,119 cubic yards of fill was placed in dams in May, against 123,077 cubic yards in April.
